

COVID Safe Plan

To make our lessons safe, the following is to be done:

By the teacher

- maintain hand hygiene
- make sanitizer available for use by all students
- disinfect high-touch surfaces (desk, door handles, the chair) after each student
- disinfect all surfaces after each day
- have no more than one student at a time in the office
- advise immediately if myself or any students test positive for COVID-19 or have been in contact with a positive case

By the student:

- bring your own stationery and calculator
- bring your own water bottle as required
- not to enter the office until the previous student has left and the surfaces are disinfected
- advise immediately if you have been in contact with a positive case or test positive for COVID-19
